EDUCATION

University of Colorado Boulder ***Expected Graduation: May 2020***

B.S. Computer Science & Minor in Economics

Key Coursework: Algorithms, Data Structures, Discrete Structures, Data Mining, Operating Systems, Intro. to AI, Databases, Principles of Programming Languages, Big Data Architecture, Natural Language Processing, Applied Econometrics

PROGRAMMING LANGUAGES

Advanced: Python, C, HTML/CSS
Intermediate: Java, JavaScript, SQL, C++, Stata
Beginner: Scala, Go, React, Swift

OTHER TECHNICAL SKILLS

Advanced: Git, Unix/Linux, Mac OS X, Pandas, IPython, GitHub
Intermediate: AWS, Flask, Postman, Agile, Heroku, Docker, Google Cloud Platform
Beginner: MongoDB, PostgreSQL, Cassandra

WORK EXPERIENCE

Twitter | *Software Engineering Intern* **San Francisco, CA • May 2019 – Present**

- Working with distributed systems.

CU Boulder Department of Computer Science | *Course Assistant* **Boulder, CO • August 2018 – Present**

- Help faculty in the preparation of lecture materials, hold weekly office hours, conduct review sessions for Algorithms (CSCI3104, Spring 2019) and Software Development Methods and Tools (CSCI 3308, Fall 2018).

Typeform | *Developer Advocate Intern* **San Francisco, CA • June 2018 – August 2018**

- Contributed to new product integrations with Twilio, IBM Watson, Slack, accessible to millions of Typeform users.
- Improved efficiency by building a tool to automate keeping track of projects on GitHub built with Typeform's APIs.
- Updated API documentation, created technical blog content for Typeform's developer products, spoke at conferences about API products.

Pinterest | *Engage Scholar* **San Francisco, CA • June 2018 – August 2018**

- Participated in a series of interactive sessions focused on technical and professional development for computer science majors which provided the skills to land, prepare for, and excel in Software Engineering positions.

RECENT PROJECTS

StudyFast **January 2019- May 2019**

- Used topic modeling machine learning to analyze YouTube videos relevant to topic searched.
- Implemented the backend application in Flask with Docker and Kubernetes and deployed on Google Cloud Platform. Created a cache layer with Cassandra to speed up queries. https://studyfast.xyz/.

.**Open Source Analysis** **February 2018 - May 2018**

- Analyzed and published insights about open source projects including trends in programming languages, shifts in dependencies over time, and changes in contributions-- https://bit.ly/2MplgeF.
- Applied data mining techniques on hundreds of millions of data points using tools such as Python: IPython, Pandas, SciPy, NumPy, and AWS: EC2, S3, Cloud9.

Mama **June 2017**

- Built an SMS/ web platform that helps young mothers in refugee camps ask confidential questions about their health using Twilio, Python, JavaScript.
- Featured in Cosmopolitan magazine, and won award presented by Kleiner Perkins (KPCB) at Chimehack4 @ FacebookHQ -- http://bit.ly/2ssQg5i.

ACTIVITIES

Hack CU | *Co-Director* **Boulder, CO • December 2016 - Present**

- Lead CU Boulder's annual hackathon (600+ hackers from across the world) and organize campus events to support the developer community in Colorado.
- Create marketing strategies to increase participation, manage team of 20+ students, organize event logistics, and helped raise $150k+ for 2017 and 2018 from sponsors—http://hackcu.org.

University of Colorado | *CU Computer Science Advisory Board* **Boulder, CO • February 2018 - Present**

- One of 2 students nominated to CS advisory board, composed of prominent members of academia and industry, to offer guidance to computer science department to advance technology programs on campus.

Spectra | *Co-Director* **San Francisco, CA • January 2018 – Present**

- Organize and design the experience for hackers at Spectra, an all women's hackathon in the Bay Area which has impacted 500+ women in CS.
- Curated technical workshops run by prominent members of industry, formed partnerships with companies, and led event logistics--http://sospectra.com.

Other: NCWIT (Aspirations in Computing), Rewriting the Code (Fellow), CU Women in Computing (Advisor)

ACHIEVEMENTS

Grace Hopper Celebration Scholarship Qualcomm, September 2018
Wozniak Scholarship College of Engineering and Applied Sciences @ CU Boulder, August 2018
#DevelopHER Spring Camp Twitter, June 2018
BOLD Scholar BOLD Center @ CU Boulder, June 2018
Google Games 2nd Place Google Boulder, May 2018
Global Citizenship by Kleiner Perkins (KPCB) Chimehack4 @ FacebookHQ, June 2017

Other Interests: Running, Yoga, Exploring Coffee Shops, Reading the News
